

Discover the Animals First Nations and Native Art Colouring and Learning Book
ISBN number 978-1-5 5476-1 84-5

The images and text in this book are the works of various First Nations artists who have developed their own distinct cultures and art forms. Common to all First Nations people is the deep connection to the land and to the animals with whom they live. The stories and artwork are inspired by the animal kingdom and are divided into three categories: those that live on land, in the sea, or in the sky. This resource would be a great supplement for classroom application. Students are encouraged to discover the natural world and have fun using their own artistic ability to create art and text to tell their authentic story.
